SUMMARY

Technical project manager and former IT Program Manager with 16 years of federal experience implementing and supporting enterprise technology programs, including a major federal healthcare IT program. Independent, detail-oriented problem solver comfortable managing competing priorities. PMP (earned 2014, currently inactive). Currently building AI-assisted operational workflows and agentic automations (MCP, Claude API) as an independent consultant.

CORE COMPETENCIES

- Stakeholder relationship management and cross-functional coordination
- Requirements gathering, technical documentation, and data validation
- Timelines, risk and issue management, metrics dashboards, executive status reporting
- Change management and system adoption

TECHNICAL SKILLS

MS Project | Smartsheet | Asana | SharePoint | G Suite | Notion | GenAI workflow automation (MCP, Claude API)

PROFESSIONAL EXPERIENCE

Self-Employed, AI / Workflow Implementation Specialist | Independent, Venice, FL

September 2025 - Present | Full-time, 40 hrs/week

- Design and implement AI-assisted operational workflows (email, calendar, Notion, GenAI agents via MCP) that automate triage and project coordination for independent production use.
- Directed project management, schedule tracking, and content strategy in G Suite for a client Kickstarter campaign that raised \$30,000 within two months.
- Tracked project expenditures and prepared cost comparisons for freelance design contractor payments tied to Kickstarter reward artwork, and collected backer addresses for reward shipment.
- Define process boundaries and access controls, gather adoption feedback, and apply continuous improvement to deployed workflows.

IT Program Manager | Internal Revenue Service, U.S. Department of the Treasury, New Carrollton, MD

December 2017 - September 2025 | Full-time, 40 hrs/week | Supervisor: Frederick Edwards (may contact)

- Served as primary liaison for 50+ requestors and SMEs; managed 400+ technology work requests with sub-24-hour average turnaround on a major federal healthcare IT program.
- Gathered and clarified business and technical requirements; redesigned intake and triage processes, cutting manual volume by 40% and improving review cycle time by 30%.
- Designed and launched a self-service intake website and maintained a weekly metrics dashboard tracking 100+ active requests, status, and utilization for leadership.
- Built an FDCCI dashboard tracking square footage, utilization, servers, rent, and virtualization savings to support business cases for consolidating satellite-office server rooms.
- Led ShowRack trial change management with CAD designers; captured adoption gaps versus AutoCAD and briefed a cost-risk case that supported not renewing or buying the full package.

Disaster Recovery Coordinator | FEMA, Orlando, FL

October 2017 - December 2017 | Full-time, 40 hrs/week | Detail assignment, IRS

- Deployed to a multi-agency Joint Field Office for Hurricane Irma recovery; facilitated daily coordination among federal, state, and local government partners on cross-agency recovery issues.
- Built process documentation and an issue-tracking system to improve reporting and communication across those government partners.

IT Program Manager | IRS, New Carrollton, MD

March 2014 - October 2017 | Full-time, 40 hrs/week

- Managed schedules and work breakdown structures across concurrent IT infrastructure projects; independently led weekly stakeholder meetings on schedule, risk, and resources; earned PMP certification in 2014.

IT Specialist | IRS, New Carrollton, MD

March 2013 - March 2014 | Full-time, 40 hrs/week | Detail assignment, IRS

- Analyzed technical specifications for enterprise IT infrastructure and tracked high-priority tickets; supported go-live planning and follow-on releases as liaison between business needs and technical delivery.

Program Analyst | IRS, New Carrollton, MD

March 2010 - March 2013 | Full-time, 40 hrs/week | Agency career ladder

- Built executive briefing materials for monthly CTO briefings; progressed to independently leading weekly status meetings; supported multi-site data center consolidation planning on a CI Strategic Planning detail.
- Recognized with a Special Act Award (2011) and an Enterprise Operations MVP Award (2012).

Business Operations Trainee | IRS, New Carrollton, MD

May 2009 - March 2010 | Full-time, 40 hrs/week | Pathways

- Supported executive office operations (meeting coordination, notes, correspondence) while completing Visio and Access training.

EDUCATION

- B.A., Psychology, George Mason University
- Master's Certificate, IT Project Management, George Washington University (2012)

CERTIFICATIONS

- Project Management Professional (PMP), earned 2014, currently inactive
- ITIL Foundations, 2012
- Claude Certified Architect (in progress)
